| Anshu | 17BCE1318 |
| Akanksha Asija | 17BCE1288 |

Our Vision

Our idea is to create a peer-peer counselling platform at university level

1. To break the stigma associated with emotional,mental issues and sensitise the student community of VIT.
2. To extend positivity
3. To provide a platform for self-growth to every student to help him/her augment his/her self-mentoring capabilities.

student

| <u>sid</u> | name | email | pswd | dob | gender | status |
|------------|------|-------|------|-----|--------|--------|
|------------|------|-------|------|-----|--------|--------|

expert

| <u>cid</u> | name | email | pswd | lang | expertise | profile_pic | designation | status |
|------------|------|-------|------|------|-----------|-------------|-------------|--------|
|------------|------|-------|------|------|-----------|-------------|-------------|--------|

public_chat

| <u>mid</u> | sender | message | mtime |
|------------|--------|---------|-------|
|------------|--------|---------|-------|

public_share

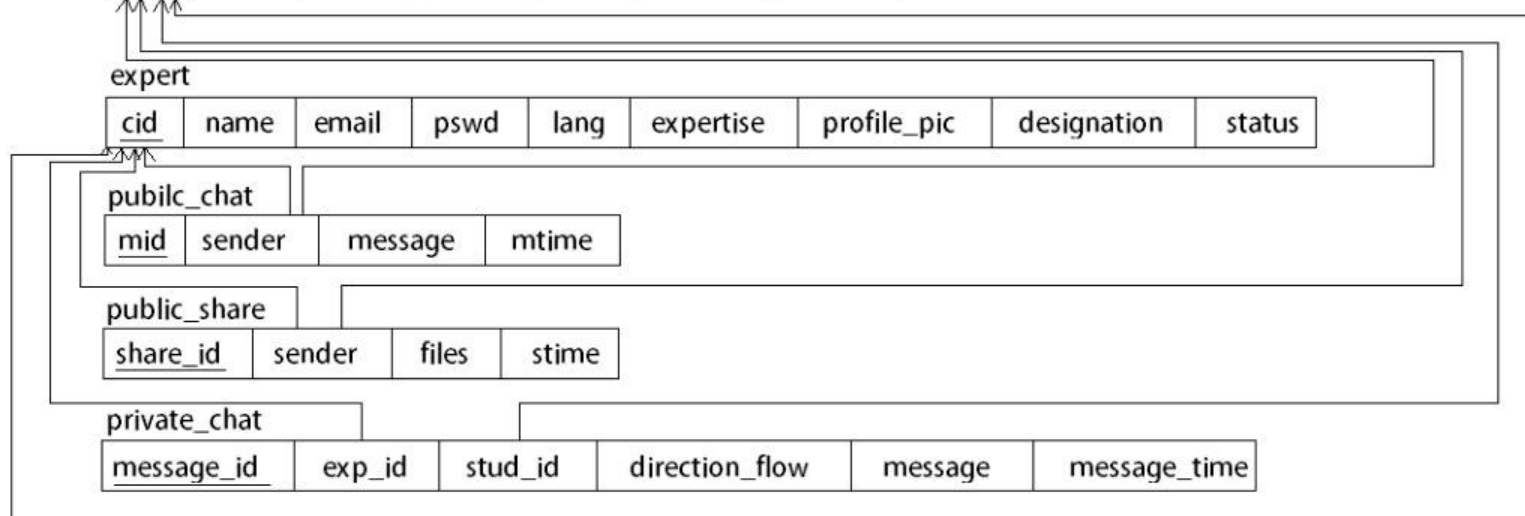

| <u>share_id</u> | sender | files | stime |
|-----------------|--------|-------|-------|
|-----------------|--------|-------|-------|

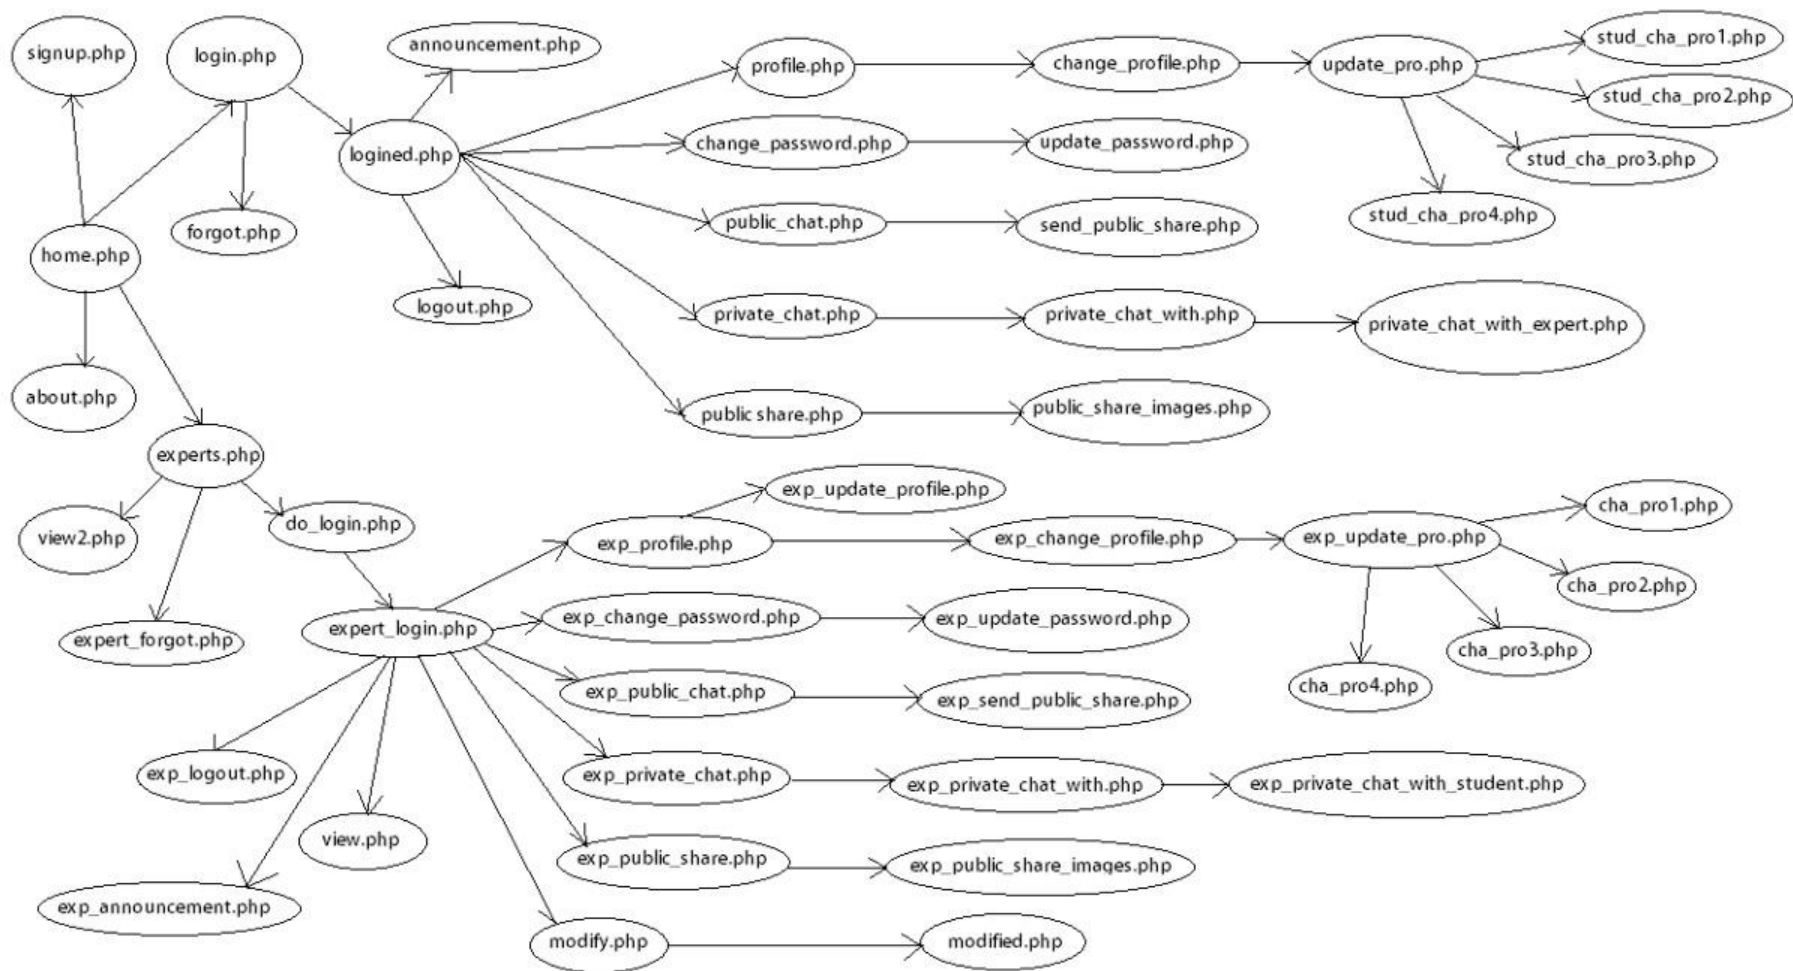

private_chat

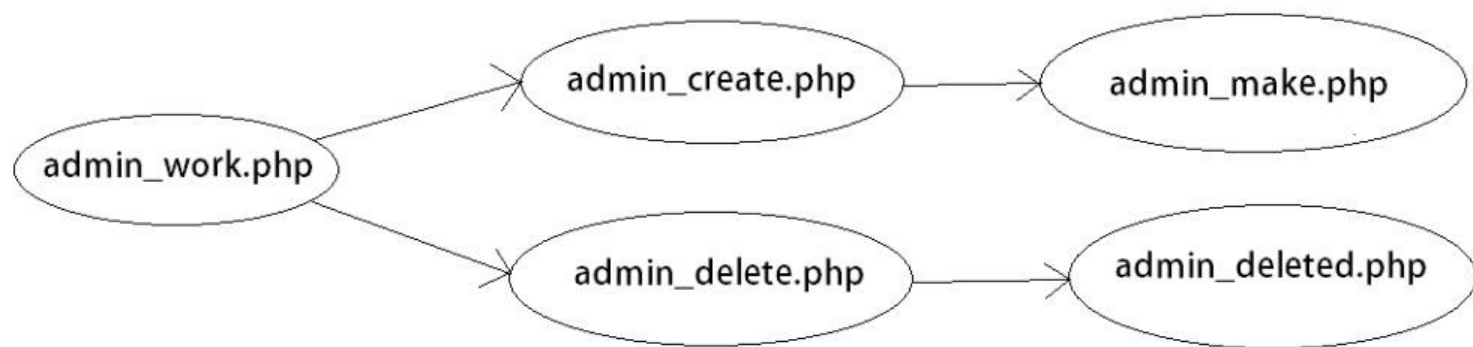

| <u>message_id</u> | exp_id | stud_id | direction_flow | message | message_time |
|-------------------|--------|---------|----------------|---------|--------------|
|-------------------|--------|---------|----------------|---------|--------------|

announcement

| <u>anid</u> | sender | announcement | atime |
|-------------|--------|--------------|-------|
|-------------|--------|--------------|-------|

Other important php files:

dbh.php - Database Handler file (included in all the files)

class.phpmailer
class.pop3
class.smtp
PHPMailerAutoload.php

} included in the files from where email has to be sent.

—

Software requirements:

Client side-HTML,CSS,Javascript

Server Side-PHP, AJAX

Future Scope:

1. Rating System
 2. Anonymous Mode
 3. Recommendation System
